Social skills and competences

As Associate Senior Consultant of SQ Consult B.V. Partner and as Director of CAP SD B.V I am responsible for business development, strategy development and managing overall portfolio of work. My social skills are furthermore illustrated by giving presentations, lectures and training courses in national and international settings for varying audiences. My international work in the EU, Central and Eastern Europe, and developing countries have allowed me to gain much experiences in working in different social and professional environments.

Organisational skills and competences

I am responsible for the daily and strategic management of the overall portfolio of work. I am responsible for all budgeting, administration and planning for the whole company. Next to my management tasks I have been working as project manager since 1993, including responsibilities for administration and coordination of projects, people and budgets. I have organized several training courses and international workshops on numerous topics related to energy and climate policy. I have been Team Leader of several EU projects and missions.

Technical skills and competences

I am a trained physicist; graduated at the Delft technical University. My education and working experience requires understanding of technical matters in natural science, engineering and physics.

Computer skills and competences

My working experience requires me to use several MS office applications such as Word, Excel and Access. I have experience in applying energy models, like Markal and EFOM
